HARVEST PLAN FOR AN EXCESS SALMON TO SPAWNING REQUIREMENT XES 2 2018

FOR THE DITIDAHT FIRST NATION

Species and Quantity

The abundance of chinook and chum and coho salmon will be determined by DFO staff, who will in turn declare a surplus to escapement and enhancement requirements. The harvest shall include dark, low-value fish and carcasses, as determined by DFO, in consultation with the First Nation. All fish other than those mentioned above must be released alive and unharmed.

Dates and Times

The dates and times this Licence is in effect are to be determined in consultation with DFO.

Incidental Catch

Only harvest methods that allow non-target fish to be released unharmed will be permitted.

Harvest Area/Hatchery

Nitinat Hatchery, River and Lake

Harvest Method

Hatchery Brail, Salmon Gill Net, Dip Net, Beach Seine, Salmon Purse Seine.

Record Keeping

The Ditidaht First Nation (or their contractor) shall maintain records of the total daily harvest, including the date of harvest, area, and number of fish by species.

The First Nation (or their contractor) shall provide this information weekly to DFO, to the attention of Kevin Conley, A/Aboriginal Programs Coordinator, South Coast, telephone: (250) 756-7196, e-mail: kevin.conley@dfo-mpo.gc.ca

Sampling Requirements

The Ditidaht First Nation (or their contractor) shall conduct sampling activities in coordination with DFO, as required.

The cost for any scale sampling required for stock analysis shall be borne by the First Nation. Scales shall be transported to the scale lab by the First Nation or their contractor. The cost for transporting samples is to be borne by the First Nation

Marking of Gear

Not Applicable

Use of Fish

Surplus salmon harvested under the Licence may be sold.

Fish Slips:

Note: Fish slips are a Provincial requirement when fish are being sold. Fish slip requirements are outlined below and are standard in all commercial licences.

The First Nation shall:

(1) provide records, in the form commonly known as a fish slip, of all fish caught and retained under authority of this Licence including fish that are sold to the public and retained for personal use.

(2) submit the slips no later than seven days after the end of the fishery. Slips should be marked as "ESSR – Nitinat" in the header and shall be sent to:

Fisheries and Oceans Canada
Fisheries and Aquaculture Management Branch, FM Data Unit
200-401 Burrard Street
Vancouver BC V6C 3S4

Fish slips may be downloaded and printed at:

<http://www.pac.dfo-mpo.gc.ca/stats/fishslips-carnets/index-eng.html>

Fish slip books may also be ordered from the printer at user cost at

<http://www.pac.dfo-mpo.gc.ca/stats/fishslips-carnets/index-eng.html>

Phone (604) 666-2716 for more information.

Reporting Requirements

(1) Final Reporting

The Ditidaht First Nation will submit to DFO a final report detailing the fish harvested, the quantity harvested and sampling results. The final report will be completed by January 15, 2019.

(2) Records

The Ditidaht First Nation will;

- (a) keep records and supporting documentation that set out the information referred to in paragraph (1);
- (b) preserve the records and supporting documentation referred to in subparagraph 2(a) for a period of two (2) years following the completion of the fishery; and
- (c) on demand, provide to DFO any of the records and supporting documentation referred to in subparagraph 2(a) for examination and audit by any person that DFO may from time to time designate.

Cost of Harvest and Risk

The Ditidaht First Nation accepts the risk of not realizing a projected quantity of surplus salmon.

The First Nation is responsible for all costs associated with the harvest activity.

The First Nation may be responsible for the cost of carrying out stock assessment on the salmon population to qualify the surplus or to confirm the final escapement, as requested by DFO.

10. Reporting Requirements

(1) Final Reporting

The QFN will submit to DFO a final report detailing: quantity of fish sold and quantity distributed by First Nation as food, social and ceremonial use. The final report will be completed by January 31st, 2019.

(2) Records

The QFN will:

- (a) keep records and supporting documentation that set out the information referred to in paragraph (1).
- (b) preserve the records and supporting documentation referred to in subparagraph (2)(a) for a period of two years following the completion of the fishery and
- (c) upon written notice, provide to DFO any of the records and supporting documentation referred to in subparagraph (2)(a) for examination and audit by any person that DFO may from time to time designate and QFN agrees to.

11. Transferability: This licence is not transferable

Licence Number: XES 22 2018

File Number: 2018-ESSR-Qualicum First Nation

Valid From: 03-Oct-2018

Expiry Date: 31-Dec-2018

12. Cost of Harvest and Risk

The Qualicum First Nation accepts the risk of not realizing a projected quantity of surplus salmon.

The Qualicum First Nation is responsible for all costs associated with the harvest activity.

Licence Issued: 09 October 2018

Licence Printed: 09 October 2018

Licence Issued By: JONATHAN JOE, Fisheries and Oceans Canada

**HARVEST PLAN FOR AN
EXCESS SALMON TO SPAWNING REQUIREMENT «AUTHORIZATION»
NSLIS#XES 22 2018
FOR THE QUALICUM FIRST NATION**

Species and Quantity

The abundance of chinook, coho, pink and chum salmon will be determined by Fisheries and Oceans Canada (hereinafter referred to as DFO) in consultation with the Qualicum First Nation (hereinafter referred to as QFN) and a surplus to escapement and enhancement requirements will be declared.

Dates and Times

The dates, times are to be determined in-season in consultation with the QFN designate and the local DFO hatchery manager and/or staff.

Harvest Area/Hatchery

Big and Little Qualicum River Hatchery enhancement facilities.

Harvest Method

Hatchery Brailer, Dip Net

Only harvest methods that allow non-target fish to be released alive and unharmed will be permitted. Labour will be provided by the First Nation or their contractor to assist in the harvesting operation.

Record Keeping

The QFN will maintain records of the total daily harvest, including the date of harvest, area, and n The QFN will maintain records of the total daily harvest, including the date of harvest, area, and number of fish by species.

The QFN (or their contractor) shall provide this information weekly to DFO, to the attention of Jonathan Joe, Resource Manager, Duncan, telephone: (250) 746-5701, facsimile: (250) 746-8397.

Sampling Requirements

The QFN shall make the catch available to DFO for sampling purposes as requested. The QFN (or their contractor) shall conduct sampling activities in coordination with DFO.

Marking of Gear

N/A

Use of Fish

Surplus salmon harvested under the Licence may be sold.

Outstanding Food Fish Requirements:

The Qualicum First Nation recognizes that the first priority for use of the surplus will be to meet any outstanding food, social and ceremonial needs for First Nations. Where the Department is made aware that there is an outstanding request for fish for food, social or ceremonial purposes from another First Nation, the Department, in consultation with QFN, may provide any surplus for this purpose.

Reporting Requirements**(1) Final Reporting**

The QFN will submit to DFO a final report detailing the fish harvested, the quantity harvested and sampling results. The final report will be completed by [March 31, 2019].

(2) Records

The QFN will;

- (a) Keep records and supporting documentation that set out the information referred to in paragraph (1);
- (b) preserve the records and supporting documentation referred to in subparagraph 2(a) for a period of two (2) years following the completion of the fishery; and
- (c) On demand, provide to DFO any of the records and supporting documentation referred to in subparagraph 2(a) for examination and audit by any person that DFO may from time to time designate.

Cost of Harvest and Risk

The Qualicum First Nation accepts the risk of not realizing a projected quantity of surplus salmon.

The Qualicum First Nation is responsible for all costs associated with the harvest activity.

The Qualicum First Nation may be responsible for the cost of carrying out stock assessment on the salmon population to qualify the surplus or to confirm the final escapement, as requested by DFO.

HARVEST PLAN FOR AN
EXCESS SALMON TO SPAWNING REQUIREMENT LICENCE
²⁴
XES ~~XX~~ 2018

FOR THE SNUNEYMUXW FIRST NATION

Species and Quantity

The abundance of chum salmon will be determined in-season by DFO stock assessment staff, who will in turn declare a surplus to escapement requirements.

Dates and Times

October 18 – December 31, 2018

The dates, times and locations are to be determined in-season through consultation with the Snuneymuxw First Nation designate and the local DFO Resource Manager(s).

Incidental Catch

All fish other than chum must be released alive and unharmed.

Harvest Area/Hatchery

Tidal portion of the Nanaimo River, Lower Nanaimo River and Cedar Bridge area.

Harvest Method

Beach seine and gill net

Only harvest methods that allow non-target fish to be released unharmed will be permitted.

Record Keeping

The First Nation will maintain records of the total daily harvest, including the date of harvest, location/area, the number of chum kept and sold, and the number of fish released by species.

The First Nation shall provide this information on the Monday and Wednesday of each week to DFO, to the attention of Kent Spencer, 315 – 940 Alder St. Campbell River, BC, phone: 250.286.5885, Email: kent.spencer@dfo-mpo.gc.ca.

Please make copies for DFO Stock Assessment staff contacts Nicki Watson or Andrew Campbell
Nicollete.watson@dfo-mpo.gc.ca
Andrew.campbell@dfo-mpo.gc.ca

Sampling Requirements

Fish will be sampled in cooperation with DFO Stock Assessment staff Nicki Watson or Andrew Campbell.

Marking of Gear

Not Applicable

Use of Fish

Surplus chum salmon harvested under the Licence may be sold.

Fish Slips:

Note: Fish slip requirements are outlined below and are standard in all commercial licences.

The Snuneymuxw First Nation shall:

- (1) provide records, in the form commonly known as a fish slip, of all fish caught and retained under authority of this Licence including fish that are sold to the public and retained for personal use.
- (2) submit the slips no later than seven days after the end of the fishery. Slips should be marked as "ESSR – Nanaimo River" in the header and shall be sent to:

Fisheries and Oceans Canada
Fisheries and Aquaculture Management Branch, FM Data Unit
200-401 Burrard Street
Vancouver BC V6C 3S4

Final Report

Due Date 31-Jan-19

The Squamish Nation shall submit to DFO, to the attention of Brian Matts, Resource Manager, Lower Fraser Area, phone: 604-666-2096, fax: 604-666-7112, a final report, as required in the Harvest Plan and agreed to by DFO and the First Nation.

Fisheries and Oceans
Canada

Pêches et Océans
Canada

Licence Number: XES 12018

File Number: LFA-2018-ESSR/Squamish

Valid From: 20-Jul-2018

Expiry Date: 31-Dec-2018

Additional Information:

Records:

Squamish Nation will.

1. Keep records and supporting documentation as set out in the **Harvest Plan - Reporting Requirements** section;
2. Preserve the records and supporting documentation referred to above, for a period of two (2) years following the completion of the fishery, and
3. Upon request, provide to DFO any of the records and supporting documentation referred to above, for examination and audit by any person that DFO may from time to time designate.

Record Keeping

The Squamish Nation (or their contractor) shall maintain records of the total daily harvest, including the date of harvest, area, and number of the fish species

The Squamish Nation (or their contractor) shall provide this information weekly to DFO, to the attention of Brian Matts, Resource Manager, by email Brian.Matts@dfo-mpo.gc.ca phone: 604-666-2096 or fax: 604-666-7112.

Terms and Conditions:

Species and Quantity

The abundance of salmon will be determined by DFO staff, who will in turn declare a surplus to escapement and enhancement requirements.

All fish other than chinook and coho must be released unharmed.

Sampling Requirements

Squamish Nation (or their contractor) shall conduct sampling activities in coordination with DFO, as required.

Use of Fish

Surplus salmon harvested under the Licence may be sold.

Fish Slips

Note: *Fish slips are a Provincial requirement when fish are being sold. Fish slip requirements are outlined below and are standard in all commercial licences.*

1. The First Nation shall provide records, in the form commonly known as a fish slip, of all fish caught and retained under authority of this licence including fish that are sold to the public and retained for personal use.
2. The First Nation shall submit the slips no later than seven days after the end of the fishery. Slips should be marked as "ESSR - location" in the header and shall be sent to:

Fisheries and Oceans Canada
Fisheries and Aquaculture Management Branch, FM Data Unit
200 - 401 Burrard Street
Vancouver, BC V6C 3S4

Fish slips may be downloaded and printed at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-camets/index-eng.html>. Fish slip books may also be ordered from the printer at user cost at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-camets/index-eng.html>. Phone (604) 666-2716 for more information.

Outstanding Food Fish Requirements

Fisheries and Aquaculture Management Branch, FM Data Unit
200 – 401 Burrard Street
Vancouver, BC V6C 3S4

Fish slips may be downloaded and printed at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-carnets/index-eng.html>. Fish slip books may also be ordered from the printer at user cost at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-carnets/index-eng.html>. Phone (604) 666-2716 for more information.

Outstanding Food Fish Requirements

The Squamish Nation recognizes that the first priority for use of the surplus will be to meet any outstanding food, social and ceremonial needs for the Squamish Nation. Where the Department is made aware that there is an outstanding request for fish for food, social or ceremonial purposes from another First Nation, the Department, in consultation with Squamish Nation, may provide any surplus for this purpose.

Reporting Requirements

(1) Final Reporting

The Squamish Nation will submit to DFO a final report detailing the fish harvested, the quantity harvested, sampling results, quantity sold, use of fish by-products, landed value, costs of harvesting and revenues. The final report will be completed by January 31, 2019.

(2) Records

The Squamish Nation will:

- (a) Keep records and supporting documentation that set out the information referred to in paragraph (1);
- (b) Preserve the records and supporting documentation referred to in subparagraph 2(a) for a period of two (2) years following the completion of the fishery; and
- (c) On demand, provide to DFO any of the records and supporting documentation referred to in subparagraph 2(a) for examination and audit by any person that DFO may from time to time designate.

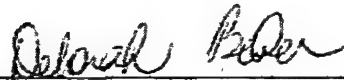

Cost of Harvest and Risk

Squamish Nation accepts the risk of not realizing a projected quantity of surplus salmon.

Squamish Nation is responsible for all costs associated with the harvest activity.

Squamish Nation may be responsible for the cost of carrying out stock assessment on the salmon population to qualify the surplus or to confirm the final escapement, as requested by DFO.

Dated at North Vancouver, British Columbia, July 17, 2018.

File Number: LFA-2018-ESSR/Leq'a:mel

Valid From: 06-Nov-2018

Expiry Date: 31-Dec-2019

c) upon request, provide to DFO any of the records and supporting documentation referred to in (a.) for examination and audit by any person that DFO may from time to time designate.

Record Keeping

The Leq'a:mel First Nation will maintain records of the total daily harvest, including the date of harvest, area and number of fish by species.

The Leq'a:mel First Nation shall provide this information weekly to DFO to the attention of Sheldon Evers, Resource Manager, phone 604-666-8049, fax 604-666-7112.

Terms and Conditions:

Species and Quantity

The abundance of chum, coho, and pink salmon will be determined by DFO staff who will in turn declare a surplus to escapement requirements.

All fish other than chum, coho, and pink salmon must be released unharmed.

Sampling Requirements

Leq'a:mel First Nation (or their contractor) shall conduct sampling activities in coordination with DFO, as required.

Provision of Equipment

All necessary equipment shall be provided by Leq'a:mel First Nation.

Cost of Harvest and Risk

Leq'a:mel First Nation accepts the risk of not realizing the projected quantity or quality of surplus salmon.

Leq'a:mel First Nation is responsible for all costs associated with the harvest activity, including, but not limited to, the provision of labour, materials and equipment for the completion of the work.

Use of Fish

Surplus salmon harvested under this Authorization may be used for FSC or may be sold.

Fish Slips

Note: Fish slips are a Provincial requirement when fish are being sold. Fish slip requirements are outlined below and are standard in all commercial licences:

(1) The First Nation shall provide records, in the form commonly known as a fish slip, of all fish caught and retained under authority of this licence including fish that are sold to the public and retained for personal use.

(2) The First Nation shall submit the slips no later than seven days after the end of the fishery. Slips should be marked as "ESSR – location" in the header and shall be sent to:

Fisheries and Oceans Canada
Fisheries and Aquaculture Management Branch, FM Data Unit
200 – 401 Burrard Street
Vancouver, BC V6C 3S4

Fish slips may be downloaded and printed at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-camets/index-eng.html>. Fish slip books may also be ordered from the printer at user cost at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-camets/index-eng.html>. Phone (604) 666-2716 for more information.

Outstanding Food Fish Requirements

Fisheries and Oceans
Canada

Pêches et Océans
Canada

Licence Number: XES 12 2018

File Number: LFA-2018-ESSR/Leq'a:mel

Valid From: 06-Nov-2018

Expiry Date: 31-Dec-2019

Leq'a:mel First Nation recognizes that the first priority for use of the surplus will be to meet any outstanding food, social and ceremonial needs for the Leq'a:mel First Nation. Where the Department is made aware that there is an outstanding request for fish for food, social or ceremonial purposes from another First Nation, the Department, in consultation with Leq'a:mel First Nation, may provide any surplus for this purpose.

Transferability

This licence is non-transferable.

Licence Issued: 06 November 2018

Licence Printed: 06 November 2018

Licence Issued By: LOURDES WHYTE, Fisheries and Oceans Canada

**HARVEST PLAN FOR AN
EXCESS SALMON TO SPAWNING REQUIREMENT
LICENCE XES 12 2018 FOR LEQ'AMEL FIRST NATION**

Species and Quantity

The abundance of chum, coho, and/or pink salmon will be determined by DFO staff who will in turn declare a surplus to escapement requirements.

Dates and Times

The dates, times and locations are to be determined in-season through consultation with the Leq'a:mel First Nation designate and the Inch Creek Hatchery manager.

Incidental Catch

All fish other than chum, and coho salmon must be released unharmed.

Harvest Area/Hatchery

Inch Creek Hatchery

Harvest Method

Only harvest methods that allow non-target fish to be released unharmed will be permitted.

Dip nets will be provided and operated by Leq'a:mel First Nation (or their contractor).

Record Keeping

The Leq'a:mel First Nation will maintain records of the total daily harvest, including the date of harvest, area and number of fish by species.

The Leq'a:mel First Nation shall provide this information weekly to DFO to the attention of Sheldon Evers, Resource Manager, phone 604-868-8049, fax 604-868-7112.

LFA-2018-ESSR/Leq'a:mel First Nation XES 12 2018

Sampling Requirements

Fish will be sampled in cooperation with DFO.

Marking of Gear

Not Applicable

Use of Fish

Surplus salmon harvested under the Licence may be used for FSC or may be sold.

Fish Slips

Note: *Fish slip requirements are outlined below and are standard in all commercial licences:*

Leq'a:mel First Nation shall:

- (1) provide records, in the form commonly known as a fish slip, of all fish caught and retained under authority of this licence including fish that are sold to the public and retained for personal use.
- (2) submit the slips no later than seven days after the end of the fishery. Slips should be marked as "ESSR – Inch Creek Hatchery" in the header and shall be sent to:

Fisheries and Oceans Canada
Fisheries and Aquaculture Management Branch, FM Data Unit
200 – 401 Burrard Street
Vancouver, BC V8C 3S4

Fish slips may be downloaded and printed at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-camets/index-eng.html>. Fish slip books may also be ordered from the printer at user cost at <http://www.pac.dfo-mpo.gc.ca/stats/fishslips-camets/index-eng.html>. Phone (604) 668-2716 for more information.

Reporting Requirements

LFA-2018-ESSR/Leq'a:mel First Nation XES 12 2018

(1) **Final Reporting**

Leq'a:mel First Nation will submit to DFO a final report detailing the fish harvested, the quantity harvested and sampling results. The final report will be completed by January 31, 2018.

(2) **Records**

Leq'a:mel First Nation will:

- (a) keep records and supporting documentation that set out the information referred to in paragraph (1);
- (b) preserve the records and supporting documentation referred to in subparagraph 2(a) for a period of two (2) years following the completion of the fishery; and
- (c) on demand, provide to DFO any of the records and supporting documentation referred to in subparagraph 2(a) for examination and audit by any person that DFO may from time to time designate.

Provisions of Labour

The Leq'a:mel First Nation or their contractor will provide employees to assist at the Inch Creek Hatchery during the time required to complete the harvesting of the surplus fish, which is anticipated to be from the date of licence issuance until on or about December 31, 2018.

Cost of Harvest and Risk

Leq'a:mel First Nation accepts the risk of not realizing a projected quantity or quality of surplus salmon.

Leq'a:mel First Nation is responsible for all costs associated with the harvest activity.

Leq'a:mel First Nation may be responsible for the cost of carrying out stock assessment on the salmon population to qualify the surplus or to confirm the final escapement, as requested by DFO.
